WAY Global Cautious Portfolio Fund, a sub fund of WAY Global Cautious Portfolio Fund
Class T Income Shares (ISIN GB00B99NHW38)

The Fund is managed by WAY Fund Managers Limited

Investment Objective and Investment Policy

Objective:

The objective of the Fund is to provide capital growth, net of all fees, over the longer term (5 years), by utilising a cautious approach to investing. Capital invested in the Fund is at risk and there is no guarantee that the investment objective will be met.

Policy:

The Fund will seek to achieve its objective through conservative investment in an actively managed and diversified portfolio of collective investment schemes, investment trusts, other listed securities, cash or near cash, deposits and money market instruments.

The Fund will typically invest up to 35% of its portfolio in equity securities.

The Fund may invest up to 20% in unregulated collective investment schemes.

There will be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector.

Derivatives will not be used. Currency hedging transactions, including investing in hedged share classes, may be used where appropriate, in order to mitigate against the effects of changes in currency exchange rates against the Fund's base currency which is Pounds Sterling.

*Borrowing of up to 10% of the Fund's net asset value will be permitted.

Benchmark:

The appropriate comparator benchmark against which the performance of the Fund can be measured in its industry sector group which is currently the Investment Association's IA Mixed Investment 0-35% Shares sector.

Other information:

- Investment in the Fund should be regarded as long-term, which is at least 5 years.
- There can be no guarantee that the objective of the Fund will be achieved.
- Upon redemption, particularly in the short-term, you may receive less than the original amount invested.
- In relation to share classes where there is an Entry Charge (see overleaf), the charge is deducted from your investment at the outset. Therefore, an equivalent rise in the value of shares is required before the original investment can be recovered. Various other charges accrue daily, therefore an equivalent rise in the value of units is required before the original investment can be recovered.
- The Authorised Corporate Director (ACD) carries out investors' requests, to buy, sell or switch, at 12:00 hours (UK time) on each business day (which excludes public holidays in England and Wales). If the ACD receives a request after 12:00 hours (UK time), the ACD will deal with it on the next business day.
- If you hold income shares, income that is available from the Fund is paid out to you once a year.
- If you hold accumulation shares, income from investments in the Fund will be rolled up into the value of your shares.

Risk and Reward Profile

- The Class T Inc Shares above appear as a "3" on the scale. This is because the Fund by its nature invests in a mixture of investments. The value of some of these investments may vary more widely than others.
- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'. The Fund does not provide its investors with any guarantee on performance, nor on monies invested in it.
- In addition to the risk captured by the indicator, the overall fund value may be considerably affected by the following risks:
 - The Fund invests indirectly in some overseas markets which carry a higher than average risk of investment and the Fund may have problems or delays in getting its investments back.
 - Investments may be made in assets denominated in various currencies and the movements of exchange rates may have an effect, unfavourable as well as favourable, on the gains and losses otherwise experienced on such investments.

- The Fund could lose money if a counterparty with which it interacts becomes unwilling or unable to meet its obligations to the Fund.
- The Fund will bear, along with the other investors, its portion of the fees and expenses of any other collective investment scheme it invests in. These fees will be in addition to the management fees and other expenses which the Fund bears directly with its own operations.
- The investments of the Company are subject to normal market fluctuations and other risks inherent in investing in securities. There can be no assurance that any appreciation in the value of investments will occur.
- The Fund is classed as a Non-UCITS Retail Scheme (NURS) and can have wider investment and borrowing powers than a UCITS scheme with higher investment limits in various areas. It can also invest to a greater extent in areas such as property and unregulated schemes and have the option to borrow on a permanent basis. Such additional powers can increase potential reward, but may also increase risk.
- For full details of the Fund's risks please see the 'Risk Factors' section of the Fund's Prospectus, which is available from WAY Fund Managers Limited, Cedar House, 3 Cedar Park, Cobham Road, Wimborne, Dorset, BH21 7SB or, during normal business hours on 01202 855856, or via www.wayfunds.com.
