EF 8AM Cautious Fund, a sub fund of EF 8AM Investment Funds
Class B Income Shares (ISIN GB00BN6Q7456)

The Fund is managed by WAY Fund Managers Limited

Investment Objective and Investment Policy

Objective:

The objective of the Fund is to achieve long-term capital growth.

Policy:

Through a cautious investment management style, the EF 8AM Cautious Fund will aim to operate within a volatility range* of between 5.0 and 9.5 and to achieve its objective through strategic asset allocation between a variety of asset classes, markets and strategies.

A minimum of 80% of the portfolio will be invested in carefully selected third party collective investment schemes and, as determined by the Investment Adviser, investment trusts. The Fund will only make investments into collective investment schemes where their net asset value calculations are scheduled on at least a monthly basis and where, at the time of investment by the Fund, the Investment Adviser is satisfied that the assets are fully liquid.

The Fund will also be able to invest in equities, bonds, warrants, money market instruments, cash and deposits.

The Investment Adviser will endeavour to maintain within the portfolio a measure of diversification between non-correlated asset classes.

The use of derivatives and/or hedging transactions are permitted in connection with the efficient portfolio management of the Fund, and borrowing will be permitted under the terms of the Regulations.

The Authorised Corporate Director (ACD) does not intend to have an interest in any immovable property or tangible movable property.

*Based on annualised 12 month standard deviation.

Benchmark:

The appropriate comparator benchmark against which the performance of the Fund can be measured is the Investment Association (IA) IA Mixed Investment 20-60% Shares sector.

Other information:

- Investment in the Fund should be regarded as long-term, which is at least five years.
- There can be no guarantee that the objective of the Fund will be achieved.
- On encashment, particularly in the short-term, you may receive less than the original amount invested.
- In relation to share classes where there is an Entry Charge (see overleaf), the charge is deducted from your investment at the outset. Therefore, an equivalent rise in the value of shares is required before the original investment can be recovered. Various other charges accrue daily.
- The Authorised Corporate Director (ACD) carries out investors' requests, to buy, sell or switch, at 12:00 hours (UK time) on each business day (which excludes public holidays in England and Wales). If the ACD receives a request after 12:00 hours (UK time), the ACD will deal with it on the next business day.
- As you hold income shares, income that is available from the Fund is paid out to you twice a year.

Risk and Reward Profile

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- The indicator is not a measure of the risk as you may lose the amount you have invested.
- The Fund is ranked as a "4" on the scale. This is because the Fund invests in a mixture of investments. The value of some of these investments may vary more widely than others. Please note that even the lowest risk class can lose you money and that extreme market circumstances can mean you suffer severe losses in all cases.
- The indicator above does not take account of the following risks of investing in the Fund:
 - The Fund invests indirectly in some overseas markets which carry a higher than average risk of investment and the Fund may have problems or delays in getting its investments back.
 - Investments may be made in assets denominated in various currencies and the movements of exchange rates may have an effect, unfavourable as well as favourable, on the gains and losses otherwise experienced on such investments.

- There is a credit risk, where the counterparty to a deal may default on repayment or not deliver its side of the deal. The Fund aims to minimise concentrations of credit risk by undertaking transactions with a large number of counterparties on recognised and reputable exchanges. The Fund will only buy and sell equity investments through brokers which have been approved as an acceptable counterparty.
- The Fund is classed as a Non-UCITS Retail Scheme (NURS) and can have wider investment and borrowing powers than a UCITS scheme with higher investment limits in various areas. It can also invest to a greater extent in areas such as property and unregulated schemes and have the option to borrow on a permanent basis. Such additional powers can increase potential reward, but may also increase risk.
- For full details of the Fund's risks please see the 'Risk Factors' section of the Fund's Prospectus, which is available from WAY Fund Managers Limited, Cedar House, 3 Cedar Park, Cobham Road, Wimborne, Dorset, BH21 7SB or, during normal business hours on 01202 855856, or via www.wayfunds.com.

Subsidy of the Fund's expenses

The OCF of the Fund has been adjusted due to the following:

- The Fund size has fallen significantly since 30th June 2024; and
- Both the Investment Manager (SAM Global Limited) and the ACD (WAY Fund Managers Limited) have agreed to substantially reduce their fees for a period of at least six (6) months from 1st October 2024^a, in order to bring the OCF down to a lower level.

Existing and potential investors should note that there is no guarantee that this subsidy will be continued beyond the 31st March 2025.

The Ongoing charge shown above does not include an amount relating to the cost of investing in closed-ended vehicles, such as investment trusts (where a fund holds such assets), which are typically fund-style assets listed and dealt on an investment exchange (e.g. the London Stock Exchange). These costs are, however, shown separately on the 'Fund Charges and Costs' document to be found on our website at www.wayfunds.com, under 'Important Information'. The relevant column is 'Closed-ended funds – Synthetic costs'. If that figure is zero against a fund, it means that the fund is not investing in closed-ended funds.
