

Non-UCITS retail scheme Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

EF Brunswick Growth Portfolio Fund, a sub fund of EF Brunswick Portfolio Fund

Class C Accumulation Shares (ISIN GB00B9C67D02)

The Fund is managed by WAY Fund Managers Limited

Investment Objective and Investment Policy

Objective:

To achieve a positive return in all market conditions, over a rolling period of 3 years.

Capital invested in the Fund is at risk and there is no guarantee that the investment objective will be met over a 3 year rolling period or in respect of any other period.

It is generally expected that the volatility of the Fund will be similar to that of the broad global equity markets.

However while volatility is taken into consideration, priority will always be given to achieving a positive return in all market conditions.

Policy:

The Fund aims to achieve its objective through investment in an actively managed, diversified portfolio of transferable securities (including investment trusts), collective investment schemes, warrants, cash or near cash, deposits, money market instruments and derivatives. Unregulated collective investment schemes may be used up to the full extent permitted by the Regulations.

The portfolio will normally remain fully invested. There will, however, be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector, other than those imposed by the Regulations, meaning that the Investment Adviser has the absolute discretion to weight the portfolio towards any investment type or sector at any time.

The maximum holding of cash will be 50% of the Fund's total net assets.

The Fund may invest in derivatives for investment purposes as well as for efficient portfolio management purposes (typically hedging, which attempts to mitigate against falls in the value of the Fund's assets and the effects of changes in currency exchange rates against the Fund's base currency, which is Pounds Sterling).

Benchmark:

The appropriate comparator benchmark against which the performance of the Fund can be measured is the Investment Association's IA Flexible Investment sector.

Other information:

- Investment in the Fund should be regarded as long-term, which is at least 5 years. There can be no guarantee that the objective of the Fund will be achieved.
- On encashment, particularly in the short-term, you may receive less than the original amount invested.
- The Authorised Corporate Director (ACD) carries out investors' requests, to buy, sell or switch, at 12:00 hours (UK time) on each business day (which excludes public holidays in England and Wales). If the ACD receives a request after 12:00 hours (UK time), the ACD will deal with it on the next business day.
- As you hold accumulation shares, income from investments in the Fund will be rolled up into the value of your shares.

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean 'risk free'.
- The indicator is not a measure of the risk that you may lose the amount you have invested.
- The Fund is ranked as a "5" on the scale. This is because the Fund by its nature has a certain level of exposure to equity securities which can experience high rises and falls. Please note that even the lowest risk class can lose you money and that extreme market circumstances can mean you suffer severe losses in all cases.
- The indicator above does not take account of the following risks of investing in the Fund:
 - The Fund invests indirectly in some overseas markets which carry a higher than average risk of investment and the Fund may have problems or delays in getting its investments back.
 - Investments may be made in assets denominated in various currencies and the movements of exchange rates may have an effect, unfavourable as well as favourable, on the gains and losses otherwise experienced on such investments.
 - Investments may be made in assets denominated in various currencies and the movements of exchange rates may have a spate effect, unfavourable as well as favourable, on the gains and losses otherwise experienced on such investments.

- There is a credit risk, where the counterparty to a deal may default on repayment or not deliver its side of the deal. The Fund aims to minimise concentrations of credit risk by undertaking transactions with a large number of counterparties on recognised and reputable exchanges. The Fund will only buy and sell equity investments through brokers which have been approved as an acceptable counterparty.
- The Fund is classed as a Non-UCITS Retail Scheme (NURS) and can have wider investment and borrowing powers than a UCITS scheme with higher investment limits in various areas. It can also invest to a greater extent in areas such as property and unregulated schemes and have the option to borrow on a permanent basis. Such additional powers can increase potential reward, but may also increase risk.
- For full details of the Funds risks please see the Risk Factors section of the Funds Prospectus, which is available from WAY Fund Managers Limited, Cedar House, 3 Cedar Park, Cobham Road, Wimborne, Dorset, BH21 7SB or, during normal business hours on 01202 855856.
