Verus Responsible Balanced Fund, a sub fund of EF UCITS ICVC

Class B Accumulation Shares (ISIN GB00BCZYGC41)

The Fund is managed by WAY Fund Managers Limited

Investment Objective and Investment Policy

Objective:
The investment objective of the Fund is to provide capital growth.

Policy:
The Fund aims to achieve its objective by investing a minimum of 75% of the invested portfolio (excluding cash held directly by the Fund) in assets that provide sustainable solutions to global social and environmental challenges. This will be made up of a combination of equity securities and collective investment schemes, and once the Fund reaches circa £25M in size, also corporate bond securities. A maximum of 75% of the Fund will be invested in equity assets, either directly or through collective investment schemes.

Meeting the “sustainable solutions” requirement is to be achieved by investing in companies that meet at least one of the United Nations’ Sustainable Development Goals, or collective funds that align to the UN SDGs. The collective investment schemes can be invested in fixed interest assets, alternatives and equities. Up to 25% of the portfolio may be invested in stabilising assets including Government Bonds and Gold (via physically backed ETFs) which are assessed to be sustainable or at least ‘neutral’. This is in order to increase diversification and reduce volatility during times of adverse market and/or economic conditions when, in the Investment Adviser’s opinion, it would be in the best interests of the Fund and its shareholders to do so.

The Fund may also invest in deposits, money market instruments, cash and near cash. In the event of extremely adverse market conditions, the Fund could move to an increased position in cash in the best interests of the Fund and its shareholders. All of the Fund’s investable assets will undergo an independent ethical screening test, on a periodic basis, to ensure that none of the investable assets directly contravene the United Nations’ Sustainable Development Goals.

The portfolio will be actively managed and normally remain fully invested save for such operational liquidity as is required from time to time. There will, however, be no restrictions on the underlying content of the investments held, in terms of geographical area or economic sector, other than those imposed by the Regulations.

The Fund may make use of borrowing in line with the Regulations.

Upon giving 60 days’ written notice to Shareholders, the Fund may use derivatives and/or hedging transactions permitted in connection with efficient portfolio management and/or for investment purposes. It is not intended that the use of derivatives in this way will change the risk profile of the Fund. The assets of the Fund will be managed in such a way that the Shares in the Fund will be qualifying investments for Individual Savings Accounts.

Benchmark:
The appropriate comparator benchmark against which the performance of the Fund can be measured is the Investment Association’s Mixed Investment 40-85% Shares Total Return in GBP.

Sustainability Disclosure Requirements (SDR) and Investment Labels:
Sustainable investment labels help investors find products that have a specific sustainability goal. This Fund does not have a UK sustainable investment label. Although the Fund pursues a responsible investment approach as explained in the Investment Policy section above, it does not meet all the criteria required for a label.

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk-free'.
- The Class B Shares above appear as a "4" on the scale. This is because the Fund invests in a combination of equity securities and collective investment schemes specialising in a mixture of ethical or sustainable industry sectors. The value of some of these investments may vary more widely than others.
- The indicator is not a measure of the risk that you may lose the amount you have invested.
- The Fund does not provide its investors with any guarantee on performance, nor on monies invested in it.
- The indicator above does not take account of the following risks of investing in the Fund:
 - The underlying investments of the Company are subject to normal market fluctuations and other risks inherent in investing in securities. There can be no assurance that any appreciation in the value of investments will occur.

- As an investor of other collective investment schemes, the Fund will bear, along with the other investors, its portion of the expenses of those other collective investment schemes, including management, performance, and/or other fees. These fees will be in addition to the management fees and other expenses which the Fund bears directly with its own operations.
- The Fund may invest in other currencies. As a result, changes in the rates of exchange between currencies may cause the value of the shares to go up or down.
- Fixed interest securities (bonds) are particularly affected by trends in interest rates and inflation. If interest rates go up, the value of the capital may fall, and vice versa. Inflation will also decrease the real value of capital.
- The Verus Responsible Balanced Fund applies certain sustainability criteria in its selection of investments. This limits the Fund’s exposure to some companies, industries or sectors and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria. Any reduction in the investment universe, based on factors unrelated to financial considerations, could potentially limit financial returns or increase financial risks.
- For full details of the Fund's risks, please see the "Risks" section of the Fund's Prospectus which is available from the ACD at WAY Fund Managers Limited, 3 Cedar Park, Cobham Road, Wimborne, Dorset, BH21 7SB, or, during normal business hours on 01202 855856, or via www.wayfunds.com.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

Charges taken from the fund over a year

Ongoing charge 1.10%

Charges taken from the fund under certain specific conditions

Performance fee N/A

The entry and exit charges shown are maximum figures. In some cases (including when switching to other funds) you might pay less - you can find out actual entry and exit charges from your financial adviser.

The ongoing charges figure in this document is an estimate, due to the fact that the size of the Fund has fallen significantly in recent months. The six-monthly report for the period ending 31 March 2025 will include details of the exact charges made during the period. The ongoing charges figure will vary from year to year. It includes any portfolio transaction costs which the Fund pays to its service providers (e.g. to the Fund's custodian) and any entry/exit charges the Fund pays when buying/selling units in another fund. In general, however, the figure excludes other portfolio transaction costs.

Since 1st April 2020, the Fund's Investment Manager, LGT Wealth Management UK LLP, has been subsidising the expenses of the share class in order to ensure that the OCF does not exceed 1.10%. The OCF continues to be subsidised.

The ongoing charges are taken from investments and not the income these investments produce. Investments in the Fund may be sold to meet ongoing charges and the value of your shares would be reduced.

For more information about charges please see pages 26 to 31 of the Fund's Prospectus, which is available from the ACD at WAY Fund Managers Limited, Cedar House, 3 Cedar Park, Cobham Road, Wimborne, Dorset BH21 7SB or, during normal business hours on 01202 855856. For more details, please see the Supplementary Information Document (SID) which is available at www.wayfunds.com or on the above number.
