Class A Income Units (ISIN GB00BSF1Y459)

The Fund is managed by WAY Fund Managers Limited

Investment Objective and Investment Policy

Objective:

The objective of the Fund is to achieve long-term capital growth, net of fees, through conservative investment in a portfolio of global assets.

Policy:

The Fund will invest in a portfolio of exchange traded funds, equity securities, fixed income securities, money market instruments, warrants, cash, near cash and deposits invested on a global basis.

The Investment Manager will aim to achieve the Fund's objective by investing between 80% and 100% of the Fund's net asset value in global equities at any time. There are no minimum investment levels in any other asset class, but in aggregate they will make up between 0% and 20% of the Fund's net asset value.

The Investment Manager will not be constrained by either geographical or industrial considerations, or other thematic considerations.

The use of derivatives will be limited to hedging of currency risk through foreign exchange contracts.

Benchmark:

The Fund's Comparator Benchmark will be the Investment Association Flexible Investment sector average.

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- The indicator is not a measure of the risk as you may lose the amount you have invested.
- The Fund is ranked as a 4 on the scale. This is because the Fund invests primarily in equity securities which can experience high rises and falls in value. Please note that even the lowest risk class can lose you money and that extreme market circumstances can mean you suffer severe losses in all cases.
- The indicator above does not take account of the following risks of investing in the Fund:
 - The Fund relies on other parties to fulfil certain services, investments or transactions. If these parties become insolvent and fail to meet their obligations, it may expose the Fund to financial loss.
 - The investments of the Company are subject to normal market fluctuations and other risks inherent in investing in securities.
 - There can be no assurance that any appreciation in the value of investments will occur.

- The Fund may use derivatives, in the form of foreign exchange contracts, to hedge currency risk associated with non-GBP assets. Such contracts will not be utilised for speculative purposes. Therefore, it is not expected that this will cause the net asset value of the Fund to be subject to higher than normal volatility.
- Certain securities could become hard to value, sell at a desired time and place, or cease to trade altogether.

- For full details of the Fund's risks please see Section 5 of the Fund's Prospectus, which is available from WAY Fund Managers Limited, Cedar House, 3 Cedar Park, Cobham Road, Wimborne, Dorset, BH21 7SB or, during normal business hours on 01202 855856, or via www.wayfunds.com.

This Fund is authorised in the UK and regulated by the Financial Conduct Authority ("FCA"). The ACD/Manager is authorised and regulated in the UK by the FCA. This key investor information is accurate as of 20 March 2026.
